**1300 AAE SOLAR (1300 223 765)**

**Ask for Steve 0429 620 991**

Take advantage of the huge solar hot water rebates being offered by the State and federal governments for the conversion of your electric Hot water heater to a state of the art evacuated tube solar hot water heater. Electric hot water heaters are being phased out so converting to Solar Hot water while able to claim more than \$3,000 in rebates just makes good sense.

**When you deal with All Energy Efficient Systems you are:**

- **Dealing directly with a local Port Macquarie Plumbing company**
- **Receiving an advanced solar hot water system with one of the longest warranties on the market**
- **Assured to receive a prompt and competitive no obligation free quote**
- **Going to receive, great service, great workmanship and a great product supplied and installed by a reliable and professional team, that will help you save money and reduce greenhouse gases.**

**Call Steve today on 1300 223 765 or mobile 0429 620 991**

Rebate Eligibility:

1. Replacing an electric hot water service that has been installed for more than 1 year.
2. Federal Government Roof insulation rebate not previously claimed.

Note: \$50 from the sale of each AAE solar hot water system will be donated to Port Macquarie Surf Life Saving Club for each purchase made by or referred by a member of the club. In order to ensure that this donation is made all no obligation quotations must be booked through Steve Filetti on 0429620991. All donations will be transferred to the club after the installation and payment of each system.
